COMMUNICATIESTRATEG
& PROJECTMANAGER

I believe that organizations need to remain loyal to themselves before they make promises to their customers.

As an interim Senior Communication Consultant, I therefore gladly contribute to the internal communication of an organization to realize its strategic objectives. By involving employees in and connecting them with the organization or change story. And by allowing (senior) managers to convey that story, to show exemplary behavior and to have meaningful conversations with their employees. In close cooperation with other communication functions and HR, and preferably as part of an integrated communication strategy and employee journey.

Summary

Professional Experience, interim
